Phone: +91 9376346516 | Email: Vishalbana2005@gmail.com | [LinkedIn](#)

Education

B.Tech, Civil Engg. (Oct'22 – May'26) : **Indian Institute of Technology (BHU), Varanasi** *CGPA : 7.84/10*
Class XII, RBSE (Apr'21 – Jul'22) : KCP, Kuchaman city *Percentage : 77.20%*

Skills

Technical: Python (NumPy, Pandas, Matplotlib, Seaborn), Power BI, SQL, MS Excel, Tableau

Areas of Interest: Exploratory Data Analysis, Data Analytics, Business Analysis, GenAI, LLMs, Prompting, AI Automation,

Soft Skills: Problem Solving, Collaborative Teamwork, Communication, Adaptability, Time Management

Work Experience

Business Analyst Intern | Alphawizz Technologies

- Analyzed datasets using **SQL, Python, and Excel** to track demand-supply, revenue, and growth KPIs effectively.
- Developed interactive **Power BI dashboard** to monitor city-wise supply trends & track key performance metrics.
- Analyzed **monthly trends and YoY city growth**, benchmarking city-wise market supply against competitors.
- Collaborated closely with **sales and business teams** to support client renewals and improve revenue performance.

Projects

Pizza Sales SQL Analytics | *MySQL, SQL* | [GitHub](#)

- Built an end-to-end sales analytics pipeline using **MySQL** to analyze **21K+ orders** and **48K+ sales records**.
- Designed a normalized **4-table relational database** with primary and foreign keys for efficient data management.
- Developed **15+ SQL queries** using JOINS, CTEs, subqueries, aggregations, and window functions for analysis.
- Analyzed **\$817K+ revenue data** to identify peak sales hours, top pizza categories, and best-selling pizza sizes.

Ola Ride Data Analytics | *SQL, Power BI, Excel* | [GitHub](#)

- Engineered **10 SQL views** on **103,024 ride records** to analyze booking success (**62%**) and cancellations (**28%**).
- Analyzed payment trends across **7 vehicle types**, identifying key revenue, demand, and customer payment patterns.
- Built a **5-page Power BI dashboard** visualizing **INR 35M+ revenue** across payment methods and ratings.
- Identified **driver-side cancellations (17.89%)** as the primary source of revenue leakage across **28,933 rides**.
- Performed **customer segmentation** to rank top-5 high-value customers, enabling targeted retention strategies.

Telecom Customer Churn Analysis | *Python, Pandas, NumPy, Matplotlib, Seaborn* | [GitHub](#)

- Conducted **end-to-end EDA** on telecom dataset of **7K+ customers** to identify key drivers of customer churn.
- Cleaned and preprocessed data using **Pandas**, handling missing values and engineering meaningful tenure features.
- Built visualizations using **Matplotlib and Seaborn** to analyze churn across contracts, payment, and services.
- Identified key **churn factors** including Month-to-Month contracts, Electronic Check payments, and low customer tenure.

Achievements / Extra-Curricular

- Earned HackerRank **SQL (Advanced) Skill Certification**, demonstrating proficiency in advanced SQL concepts.
- Awarded a **Letter of Recommendation (LOR)** for exceptional performance in analytics and communication.
- Won **PMx, IIT Guwahati**, demonstrating product strategy, user-centric design, and analytical problem-solving.

Position of Responsibility

Publicity Head | Kashiyaatra'26 | IIT (BHU) Varanasi

Oct'25 – Mar'26

- Led publicity for **Kashiyaatra'26**, delivering campaigns that engaged **2,200+ students** across **200+ institutions**.
- Optimized **outreach and publicity** budgets, improving event visibility, audience engagement, and participation.

Events Manager | Spardha'25 | IIT (BHU) Varanasi

Aug'25 – Oct'25

- Led a **30+ member team** in planning and executing operations for **18+ sporting events** during the sports festival.
- Coordinated logistics for **2,000+ athletes**, ensuring seamless event execution and enhancing participant experience.
